Profile

My name is Claudio Foti and I am a Full-Stack and Software Developer. I come from Switzerland and I am currently studying in Barcelona to complete my Bachelor's degree in Cyber Security at [Harbour.Space University](#).

Education

CFC in Computer Science, Maturité Professionnelle Technique, École Professionnelle Technique des Métiers, Sion (Switzerland)

August 2016 — June 2020

Apprenticeship giving a Federal Capacity Certificate (CFC) of Computer Scientist with an integrated Vocational Baccalaureate (Maturité Professionnelle Technique).

Bachelor's degree in Cyber Security, Harbour.Space, Barcelona (Spain)

September 2021 — August 2024

I am currently completing my Bachelor's degree in Cyber Security

Experience

Software/Web developer , Caisse de compensation du canton du Valais, Sion (Switzerland)

August 2019 — July 2020

In the last year of my apprenticeship, I had the chance to do a one-year internship at the Caisse de compensation du Valais as a software and web(full-stack) developer.

Full Stack Web Developer , DayOneFactory, Sion (Switzerland)

July 2021 — August 2021

I joined a team of web developers for a month and a half as a summer job and helped them in various projects. I notably worked on a website in React (front-end) and Drupal (back-end) thanks to which I could learn these tools.

Freelancer

August 2020 — Present

I have worked for several individuals and companies as a freelancer. During these mandates, I created showcase websites (HTML5 + CSS3 + jQuery) or Wordpress websites. I also created internal tools for real estate portals in PHP or scripting languages.
