Profile

Having finished my apprenticeship with an integrated Vocational Baccalaureate, I am now in my second year of Bachelor's in Cyber Security at Harbour.Space University.

Education

École Professionnelle Technique des Métiers, CFC et Maturité Professionnelle Technique

Aug 2016 — Jun 2020 Sion (Switzerland)

Apprenticeship giving a Vocational Capacity Certificate (CFC) with an integrated Vocational Baccalaureate (Maturité Professionnelle Technique)

Harbour.Space, Bachelor

Sep 2021 — Aug 2024 Barcelona (Spain)

I am currently completing my Bachelor's degree in Cyber Security

Stage

Software/Web developer , Caisse de compensation du canton du Valais

Aug 2019 — Jul 2020 Sion (Switzerland)

In the last year of my apprenticeship, I had the chance to do a one-year internship at the "Caisse de compensation du Valais" as a software and web(full-stack) developer.

Employment History

Full Stack Web Developer , DayOneFactory

Jul 2021 — Aug 2021 Sion (Switzerland)

I joined a team of web developers for a month and a half for a summer job and helped them in various projects. I notably worked on a website in React (front-end) and Drupal (back-end) thanks to which I could learn these tools.

Freelancer

Aug 2020 — Present

I have worked for several individuals and companies as a freelancer. During these mandates, I created showcase websites (HTML5 + CSS3 + jQuery) or Wordpress websites. I also created internal tools for real estate portals in PHP or scripting languages.
